

### **Corazon C. Aquino High School Badminton Athletes Qualify for Provincial Meet**

GERONA, TARLAC — Six badminton athletes from Corazon C. Aquino High School in Poblacion 3, Gerona, Tarlac have qualified for the upcoming Provincial Meet following their performance in the recently concluded Municipal Meet.

The athletes, Jessie Ballesteros, Yrbhen Klein Labuguen, Arabellaniña Estavillo, Abiah Kaylee Dadivo, Andrea De Leon, and Lara Mae Magaoay, will advance to the provincial level, where they are expected to compete against qualified athletes from other municipalities in Tarlac.

Their advancement highlights the importance of discipline, coordination, speed, and strategic decision-making in badminton. The athletes must now continue their training and prepare for the higher level of competition at the Provincial Meet.

Badminton also provides a practical application of physics, particularly through the motion and trajectory of the shuttlecock. The force exerted by the racket, the angle of impact, and the position of the player affect the shuttlecock's velocity and direction. Gravity also influences its flight as it moves through the air and eventually returns toward the court.

The players' movements across the court further demonstrate concepts such as velocity and acceleration. Quick changes in direction and speed allow them to reach the shuttlecock and respond effectively to their opponents' shots. Proper timing and positioning are therefore essential in controlling the outcome of each rally.

Having secured their place at the provincial level, the six athletes are now set to represent Corazon C. Aquino High School and Gerona in the upcoming competition. Their qualification reflects their commitment to training and their determination to compete at a higher level.

As preparations continue, the athletes will seek to strengthen their skills, improve their strategies, and apply the discipline developed during the Municipal Meet as they face the challenges of the Provincial Meet.
